SUMMARY

Hello! I'm Muhammad Kashif, a passionate data scientist with a comprehensive skill set that enables me to extract valuable insights from complex datasets and build predictive models. My expertise spans across both data analysis and machine learning technologies, allowing me to work with diverse data sources and methodologies to solve real-world problems. I'm proficient in every layer of the data science workflow, from data cleaning and exploration to modeling and visualization.

SKILLS

PROFESIONAL

- Python
- SQL
- Machine Learning
- Deep Learning
- NLP
- REST API
- Power BI

EDUCATION

PAF KIET
BSCS
2020-2024

SMIT
Machine Learning
Engineering 2022-2023
